The management of transboundary fish stocks might be described as a complex mosaic. Multiple fora are trying to incrementally shift the fisheries management course towards a sustainable future. *Recasting Transboundary Fisheries Management Arrangements in Light of Sustainability Principles* reviews and critiques key recasting efforts, with a primary focus on Canada's transboundary fisheries management arrangements for the Pacific and Atlantic oceans. It provides a primer on the international law and policy framework governing transboundary fisheries and offers bilateral and regional case studies in the search for more principled fisheries governance approaches based on the new sustainability imperatives.

*Recasting Transboundary Fisheries Management Arrangements in Light of Sustainability Principles* offers current Canadian and international perspectives on the challenges facing regional fisheries management organizations, as well as bilateral and national arrangements, as they face the tides of sustainability reform.

Dawn A. Russell, LL.M. (Cambridge, 1985), is Associate Professor and Purdy Crawford Chair in Business Law at Schulich School of Law, Dalhousie University. Her research and writings have focused on international and comparative oceans law.

David L. VanderZwaag, Ph.D. (Cardiff, 1994), holds the Canada Research Chair in Ocean Law and Governance at the Marine & Environmental Law Institute, Schulich School of Law, Dalhousie University. He has written extensively in the marine and environmental law fields.
